

HELP DESIGN THE 32ND & THORN INTERSECTION MURAL!

Attention North Park Creatives!

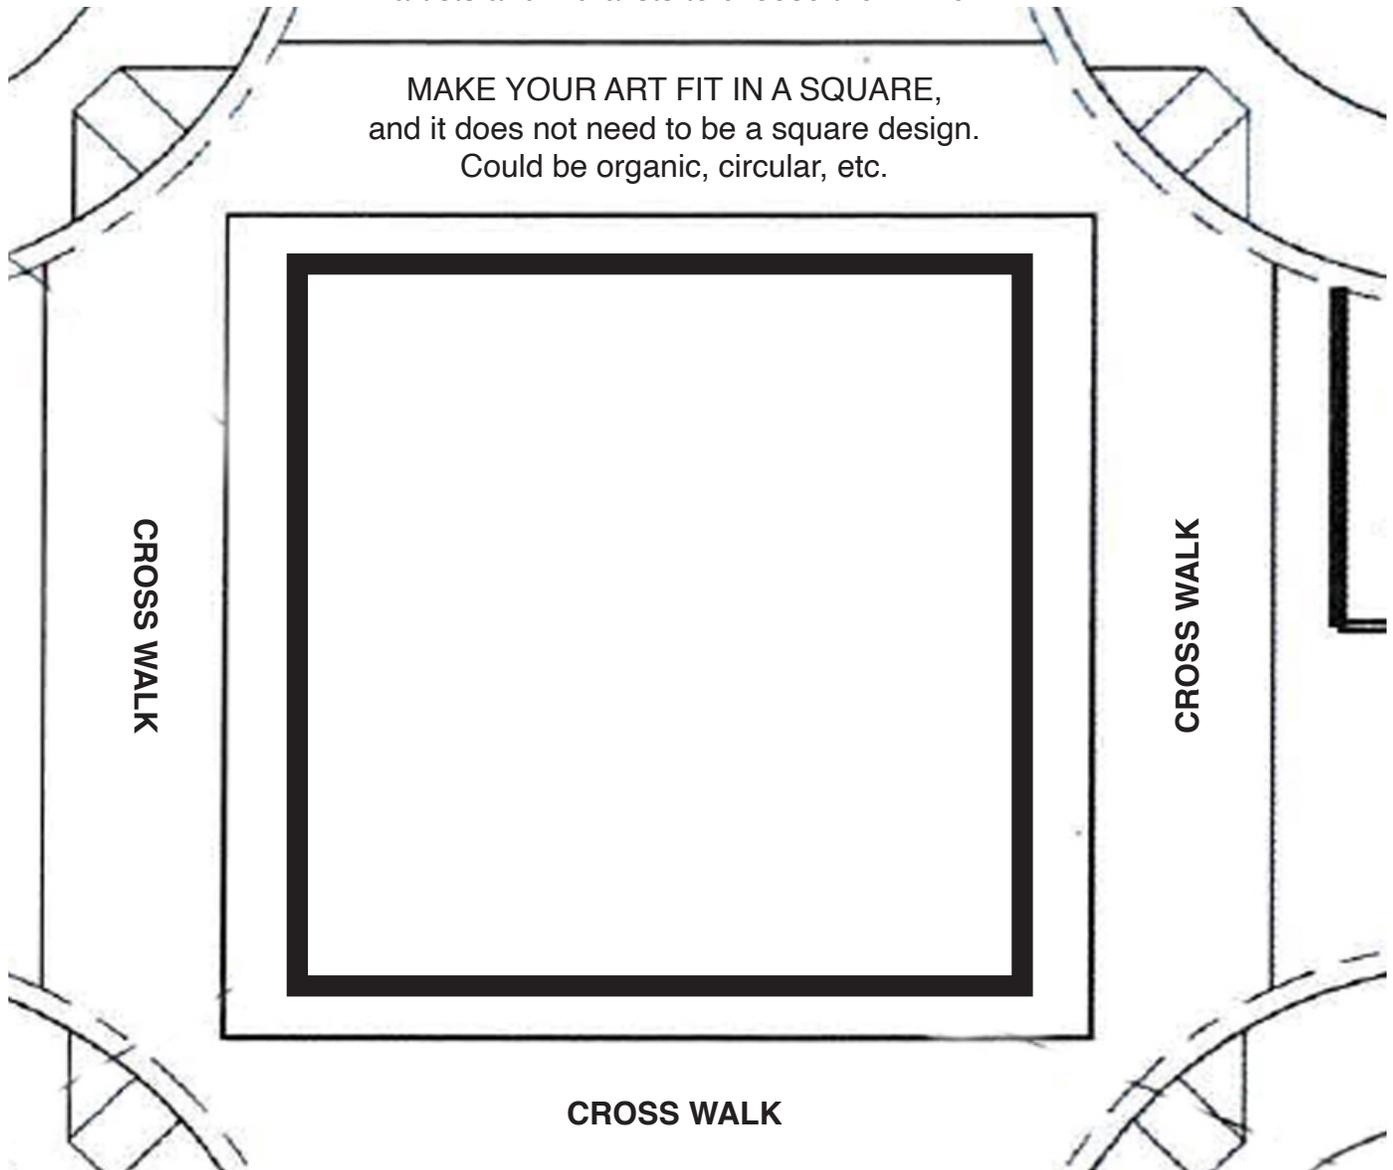

We are working to paint an intersection mural in our little neighborhood to help slow traffic as well as express the creative vibe of our neighborhood. This will be a community based project, allowing all who want to participate. This hopes to be a pilot program for other intersections, too!

Keep your design ideas bold and simple, this will be a community painting project for all ages!

Limit yourself to 6 colors.. Go to this link for a short video: <https://vimeo.com/95972201> or do a search for “intersection art” or “crosswalk art” to get inspired! You can submit multiple ideas.

Art will be voted on by neighbors and the top 10 designs will be juried by a committee of artists and muralists to choose the winner.

MAKE YOUR ART FIT IN A SQUARE,
and it does not need to be a square design.
Could be organic, circular, etc.
